

# GAUGEMASTER

## Modern Lights

*This range of finely scaled single-head and double-head lamps are suitable for any modern era layout. Available in Single and Double head variants, and small and large packs, these LED lamps will really light up your streets.*

*The lamps feature accurately designed lamp heads for realistic modelling, as well as prototypical speakers for station announcements. These lamps would also happily pose as street lighting for your roadways too. Simply take off the easy to remove speakers for use on your streets and highways.*

**GM829** 4 Modern Single Head Adjustable Lamps

**GM830** 3 Modern Double Head Adjustable Height Lamps

*Much like our other ranges of lamps, these modern lights are also available in Value packs. These packs also include additional LEDs for building lighting. There is also an additional pack of resistors to allow you to create the exact light levels from the LEDs that you require.*

**GM879** 8 Modern Single Head Adjustable Height Lamp Value Pack

**GM880** 5 Modern Double Head Adjustable Height Lamp Value Pack

Depending on the era you are modelling, you may find that the lights are a little bright for some situations. This can be adjusted by installing the additional variable resistors. Why not set them at different levels to simulate newer and older installations or replacement lights?

**GM895** LED/Lamp Variable Light Control PCB - Pack of 2

**GM896** LED/Lamp Variable Light Control PCB - Pack of 5

# GAUGEMASTER

## Lighting

The Gaugemaster Lighting range contains Barley Twist, Taper Post, and Wall Mounted lamps, which are ready-painted in specific region liveries. These lamps are available in packs of three, or in bulk value packs. Modern single and double street lamps are also included, to complete the range.

**[www.gaugemaster.com](http://www.gaugemaster.com)**

## Taper Post Lamps

Our range of taper post lamps are designed true to scale for the OO Scale modeller. There are two types of taper post lamp, those that would have been gas powered, and those that would have been oil fueled. The main difference between these lamps is simple; the size of the head of the lamp; the oil fuelled lamps being wider than their gas counterparts.

These lamps come supplied in packs of three and are available in a variety of colour schemes. They run on a 12v DC supply and come with resistors to allow different levels of brightness depending on your needs.

**GM807** BR/SR Green Taper Post Gas Lamps

**GM808** LMS Maroon Taper Post Gas Lamps

**GM810** Grey Taper Post Gas Lamps

**GM812** BR/SR Green Taper Post Oil Lamps

**GM813** LMS Maroon Taper Post Oil Lamps

**GM814** GWR Stone Taper Post Oil Lamps

The lamps are also supplied in value packs. These packs contain six of the tapered post lamps, and an additional set of two matching wall lamps. These packs are perfect for any platform, allowing the platform itself to be illuminated with the taper post lamps, and the station building becoming home to the wall lamps. The pack also includes additional LEDs and resistors for illumination your buildings too.

**GM856** Soft Black Taper Post Gas Lamp Value Pack

**GM857** BR/SR Green Taper Post Gas Lamp Value Pack

**GM860** Grey Taper Post Gas Lamp Value Pack

**GM863** LMS Maroon Taper Post Oil Lamp Value Pack

## Barley Twist Lamps

This range is similar to the taper post lamps, however these lamps feature a much more of an ornate design as they have a twisted stem. Not only would these look good on a station platform, they wouldn't look out of place on any park or street on your layouts and dioramas either.

These lamps come supplied in packs of three and are available in a variety of colour schemes. They run on a 12v DC supply and come with resistors to allow different levels of brightness depending on your needs.

**GM803** LMS Maroon Barley Twist Gas Lamps

The value packs contain six of the barley twist lamps, and an additional set of two matching wall lamps. These packs are perfect for any modest platform, allowing the platform itself to be illuminated with the taper post lamps, and the station building becoming home to the wall lamps. The pack also includes additional LEDs and resistors for illumination your buildings too.

**GM851** Soft Black Barley Twist Gas Lamp Value Pack

**GM853** LMS Maroon Barley Twist Gas Lamp Value Pack

**GM854** GWR Stone Barley Twist Gas Lamp Value Pack

## Accessories

**GM895** LED/Lamp Light Control PCB - Pack of 2

**GM896** LED/Lamp Light Control PCB - Pack of 5

**GM897** LED Mini Light Control PCB - Pack of 10

**GM898** Lamp Mini Light Control PCB - Pack of 10

## Wall Lamps

These wall mounted gas lamps are designed to be mounted on your station platform buildings. They mount flush to your buildings with wires going through the walls for seamless intergration. They don't just have to be mounted on station buildings though, they wouldn't look out of place on your industrial and goods yard buildings.

**GM825** BR/SR Green Wall Mounted Gas Lamps

**GM826** LMS Maroon Wall Mounted Gas Lamps

**GM827** Grey Wall Mounted Gas Lamps

**GM828** GWR Stone Wall Mounted Gas Lamps

Much like the wall mounted gas lamps, the swan neck lamps are very versatile. Although not featuring a swan neck, the surround matches the shape of the swan neck lamps of the past.

**GM821** BR/SR Green Wall Mounted Swan Neck Lamps

**GM822** LMS Maroon Wall Mounted Swan Neck Lamps

**GM823** GWR Stone Wall Mounted Swan Neck Lamps
