

GAUGEMASTER

N Scale Signals

GM270 2 Aspect
Lineside Signal

GM271 2 Aspect
Platform Signal

GM275 3 Aspect
Lineside Signal

These signals feature injection moulded plastic heads along with brass poles and nickel silver bases. They are accurately pre-painted, feature specially domed LEDs with lens effect and we've ensured that the red, green and amber LEDs are as prototypical as they can be. The signals are pre-fitted with appropriate resistors and 170mm of multi-core teflon wire. We are also pleased to say that these items are manufactured here in the UK, and have been created to run on a 12v DC Supply.

Single Signals

Packs of 1
GM270 2 Aspect Lineside
GM271 2 Aspect Platform
GM273 2 Aspect Signal Head
GM275 3 Aspect Lineside
GM276 3 Aspect Platform
GM277 3 Aspect Signal Head

Bulk Packs of Signals

Packs of 3
BPGM270 2 Aspect Lineside
BPGM271 2 Aspect Platform
BPGM273 2 Aspect Signal Head
BPGM275 3 Aspect Lineside
BPGM276 3 Aspect Platform
BPGM277 3 Aspect Signal Head

Switching our signals is easy. For 2 aspect signals a simple toggle switch would happily do the job. these are standard On-On switches keeping either the top or bottom LED illuminated. For 3 aspect signals, a rotary switch would be required. If you would like to keep the switches the same, the rotary switch can be used for 2 Aspect too.

GM508 SPDT Mini Toggle Switch
BPGM508 Bulk Pack of 25 SPDT Mini Toggle Switches.
GM519 Rotary Switch 1 Pole 12 Way
GM29 Knob for Rotary Switches

GAUGEMASTER

Track

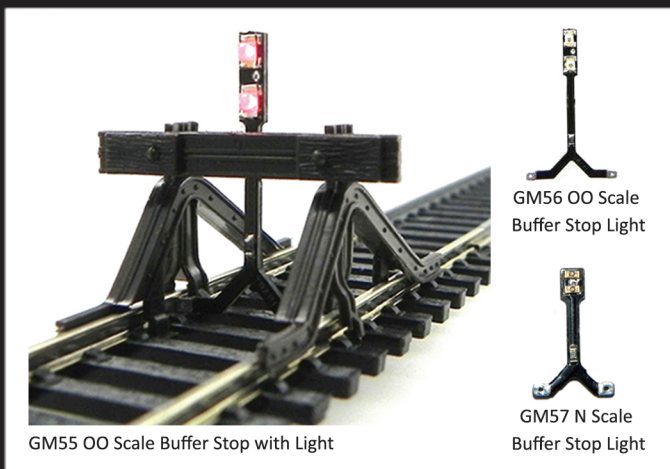

You'll find a lot of interesting items in the Gaugemaster Track range - everything you need to lay track and accessories to enhance it. Ballast, buffer stops (including lit versions), ballasted foam underlay, cork underlay, as well as joiners and track pins. Also included is our new range of N Scale Signals suitable for both Analogue and Digital layouts.

www.gaugemaster.com

Buffer Stops and Lights

GM55 OO Scale Buffer Stop with Light

GM56 OO Scale
Buffer Stop Light

GM57 N Scale
Buffer Stop Light

Add a realistic Buffer Stop and Light to your layout at a price that won't break the bank. Both the Buffer Stop and the Light simply clip on to the track - no wires are required, and as separate items can be used together or independently either at platform ends or at the end of a siding. This easy to use item gives you "Instant Gratification" as if used on DCC, both LED lights are on constantly, while on DC layouts, one light will come on and vary with the speed of the train. These items are ready to place but can be enhanced further with painting and/or weathering.

- GM55** Buffer Stop OO Scale with Light
- GM57** Buffer Stop N Scale with Light

The buffer stops are also available seperatly for those areas the lights are not required. This could be in tunnels, or disused sidings, or simply used anywhere to stop you locos.

- BPGM53** Buffer Stops N Scale (5)
- BPGM54** Buffer Stops OO Scale (5)
- GM53** Buffer Stop N Scale
- GM54** Buffer Stop OO Scale

If you have buffer stops already and don't want to replace them, all you will want is the lights themselves. These are also available separately in packs of two.

- GM56** Buffer Stop Lights OO Scale (2)
- GM58** Buffer Stop Lights N Scale (2)

Ballasted Underlay

Make ballasting easy with our range of pre-ballasted underlays. 5 metres of foam underlay with either our brown or grey ballast bonded to the foam. Very flexible and easy to work with, our underlay features sleeper indentations to allow your track to sit into the ballast. For additional effect you can use the corresponding loose ballast to fill in any areas which require more ballast such as yards or stations.

- GM200** Ballasted Underlay Roll - Grey - OO Scale
- GM201** Ballasted Underlay Roll - Grey - N Scale
- GM210** Ballasted Underlay Roll - Brown - OO Scale
- GM211** Ballasted Underlay Roll - Brown - N Scale

The point work can be easily intergrated with the underlay with these easy to use packs.

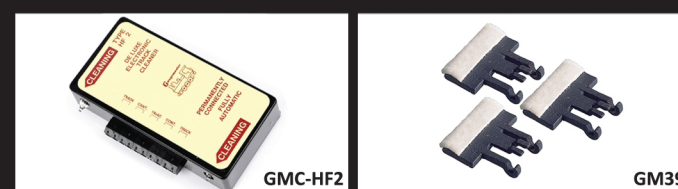

- GM204** Ballasted Point & Crossing Kit - Grey - OO Scale
- GM205** Ballasted Point & Crossing Kit - Grey - N Scale
- GM214** Ballasted Point & Crossing Kit - Brown - OO Scale
- GM215** Ballasted Point & Crossing Kit - Brown - N Scale

Our ballast matches our underlay, but can also be applied in the usual manner.

- GM111** 500g Brown Ballast - OO Scale
- GM113** 500g Brown Ballast - N Scale
- GM114** 500g Grey Ballast - OO Scale
- GM115** 500g Grey Ballast - N Scale
- GM117** 200g Grey Ballast - OO Scale
- GM118** 200g Grey Ballast - N Scale
